

## **Product Use Case Toolkit**

**Title:** Product Use Case Toolkit

**Subtitle:** Real-World Examples of Voxvita in Action

---

### **Finance & Accounting**

- Used Voxvita tools to automate reconciliation between Excel and internal financial software.
- Replaced manual month-end adjustments with a scheduled data sync from multiple sources.

### **Healthcare & Medical Records**

- Migrated patient records securely from legacy formats to HIPAA-compliant systems.
- Enabled front-desk automation for appointment scheduling and insurance verification.

### **Logistics & Supply Chain**

- Implemented XL2SAP for converting shipment tracking data into SAP inputs.
- Reduced 60% manual spreadsheet work for inventory forecasting.

### **Professional Services & Consulting**

- Created reusable client templates with intake forms, scopes, and dashboards.
- Automated post-project report generation with data pulled from client forms and internal logs.
